OUR NET ZERO COMMITMENT

Simply Care (Worldwide) Limited is committed to **Net Zero by 2050**, with interim reductions of **15% by 2028, 30% by 2030, 50% by 2035 and 75% by 2040**.

Care worker travel between visits accounts for **62% of our reported footprint** — the focus of our 12-month reduction programme.

i Reporting boundary (Operational Control). Simply Care does not own or operate any premises, fleet or stationary plant. The office it occupies is leased and managed by an associated company; energy consumption is billed to and reported by the head tenant. Scope 1 and 2 are therefore reported as zero. For full transparency, the headcount-allocated share of office utilities (1.1 tCO₂e) is voluntarily disclosed below under **Scope 3 Category 8 — Upstream leased assets**.
